LOAD SECUREMENT FOR RETAIL AGRICULTURE

Keep Your Loads Secure on Every Trip

Whether you're hauling liquid totes, chemical containers, hoses, tools, or equipment, an unsecured load can quickly become a serious safety and environmental hazard. Our Load Securement for Retail Agriculture course covers practical ways to properly secure agronomy loads, perform pre-trip inspections, prevent shifting and spills, and respond safely if a spill occurs. Learn how a few simple steps before and during transport can help protect your employees, your equipment, the environment, and everyone on the road.

Grain Dust - No Smoking

Check out our selected Take 5 toolbox or Take 2 video

A lit cigarette can ignite grain dust and create a serious fire or explosion hazard. This [Take 5 Toolbox Talk](#) topic highlights the importance of no-smoking policies, clear signage, and consistent enforcement to help prevent grain dust ignition.

Our library of over 100 safety talks can be accessed by your Safety Made Simple admin in the resources section of your company's training portal. Click [here](#) to check out the full list of available Take 5 topics.

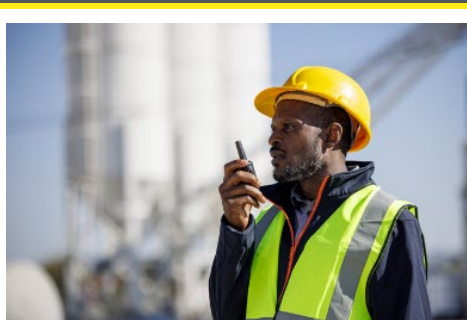

The [Safety Made Simple catalog](#) offers numerous courses to protect your workers. Make sure your employees are trained properly -- send them home safe, every day!

Safety Simplified Blog

Read the latest blog by Joe Mlynek

In his latest blog, "Combustible Dust and Electrical Equipment," Joe Mlynek explores why electrical equipment can pose a serious ignition hazard in grain and milling facilities. Learn how understanding Class II hazardous locations and checking equipment before use can help prevent combustible dust fires and explosions.

Is It Safe? You Decide

Review the picture below and then you decide, Is It Safe?

Come on Man!

Some pictures are worth a thousand words. This one was sent to us by one of our partners. Interesting take on a wheel chock and a jack.

An Encouraging Word

"When pride comes, then comes disgrace, but with humility comes wisdom."

Proverbs 11:2
